

PREPARATION GUIDE

This preparation guide is meant for Ant, Silverfish, Spider, and Sow Bug infestations.

BEFORE TREATMENT

- 01** Move items 2-4 inches away from the baseboard (wall).
- 02** Pick up any kids or pet toys and put them away in storage.
- 03** If you have fish, turn off the air pump of the tank.
- 04** No food should be exposed. Please pack anything away accordingly.
- 05** Be prepared to leave your home/ business upon our arrival along with pets.

AFTER THE TREATMENT

- 01** Open up windows to ventilate the home/business.
- 02** Do not use a wet mop against the baseboard or treated areas.
- 03** Be patient as the treatment can take some time to show results.

Your full cooperation is necessary in order to achieve efficient results.
